ABOUT ME

A hard working, diligent individual with strong problem-solving skills and a passion for creating visually stunning VFX.

In addition to my Bachelor's degree, I have developed a strong set of Houdini skills, to complement my existing Maya, Nuke and UnReal Engine skills. This enables me to create powerful, high quality and impactful visual effects for TV, film and games.

SKILLS

EDUCATION

BA Hons 3D Animation & VFX

University of Chichester
2020 - 2023

Certification in Intro to Houdini FX & Houdini Water FX

Rebelway Training Academy
2022 - 2023

9 GCSEs, BTEC L3 Film & TV Production, BTEC L3 in Applied Science

St Paul's Catholic College, Burgess Hill
2013 - 2020

EXPERIENCE

VFX and Compositing

University Industry Engagement Project – NVIZ (2022)

A key module in the second year of my degree course was an industry engagement project supporting an NVIZ team creating a pilot episode for an animated comedy called, "Reel Tale". I was responsible for generating stylised VFX elements in Houdini and compositing several shots in Nuke.

- Discussing customer requirements and generating ideas for the stylised explosion and muzzle flash effects
- Participation in LookDev and dailies to ensure generated effects sat into the scenes as expected
- Application of master script with customisation for several shots ensuring continuity of style and aesthetic across all shots

Badminton England Registered Coach

Self-Employed (2021 – Current)

I provide individual and group badminton coaching to all levels of players as a means of funding my education and ongoing VFX skills development.

- Managing demand, scheduling group and individual session bookings
- Generating development plans with players to guide coaching sessions
- Planning and executing coaching sessions to drive player development

Lifeguard

Places For People Leisure (2018-2020)

As a strong swimmer, I completed my RLSS National Pool Lifeguard Qualifications in 2018. The role of a lifeguard has a great deal of individual responsibility, whilst also providing invaluable experience of working effectively within a team.

- Coordinating application of standard operating procedures with Team leads to ensure full lifeguard coverage
- Qualified First-Aider and engagement with customers to ensure safety
